

Digital Camera Printing Over the Counter

Professional prints from digital camera media such as CD's or media cards can easily be printed on photographic paper just as 35mm or 120mm film. Each individual digital image/file is carefully inspected and color corrected by an experienced lab technician. All standard print sizes are offered through our digital printing process. Cooper's Imaging is well equipped to follow our customers into the future of digital photography. Images must be submitted in JPEG or TIFF format.
