

Wedding Prices

How it works

I shoot a selective number of weddings each year, offering a high-end service – but I've worked hard to include as much value as possible in my options for couples who don't want to compromise on the quality of capturing their wedding day.

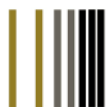

What the options are...

There are just two services to choose from – the all-inclusive **essentials** or a wider choice of **books and albums**. The **essentials** option is designed for those who want their photography and album together in a package.

With the **books and albums** there is more choice. Albums are an important way of telling your story and once we've finished it you'll also receive a high resolution disc. There are design options too – from simple page layouts to more involved options utilising elements of design. We offer simple (which is free of charge) and custom (£5.00 per page). We can also work with graphic designers to link the design of your wedding stationery to that of the final album or book. Retouching is also available.

All travel costs within Kent are included - bookings outside of Kent and overseas will require additional travel and accommodation costs which will be agreed with you in advance. A booking fee of £500.00 is required to secure your date.
