

Photography Training

Trainee Eligibilities

The eligibilities are simple:

1. An interest in photography.
2. Ambition and enthusiasm.
3. The willingness to learn.

If you have these qualities The Alan Khan Photography Institute will provide you with the knowledge and skills to ensure your success.

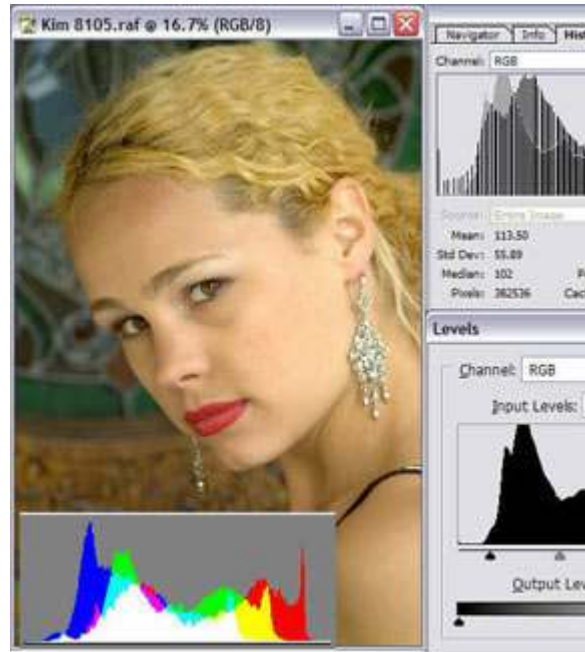

Requirement

Trainee must have a Digital camera & accessories, Computer or laptop with internet connection, own vehicle (optional) and a mobile phone.

Area of Training

Training involves wide area of photography and very limited and essential area of graphic design. Their learning also includes leadership, communication and doing marketing in the scope of photography.

Training Material

Training material includes books and CDs containing Interactive audio video tutorials and tests. The learning is a combination of three things, Self-paced, class oriented and hand to hand learning.

Training

Major parts of the training concerns with Projects, workshops and assignments. All the trainees require taking the tests and going through assignments. Multiple questions and True/false type tests are computer based. Pass marks is 90% a trainee can sit for a test more than once, until pass. Assignments are graded as A, B, C and F representing Excellent, Good, Average and Fail respectively. If a trainee fails, he can re-do the test or assignment until he passes. The Photos will be discussed in the class in three areas. 1. How is the photo 2. what could be done(camera settings and timing) 3. what can be done. (By using softwares)

Projects

Project involves taking photos in different field of photography to serve two different purposes. Other than learning and practising photography, photos will be used as our resource of stock photography. As for example, let us consider we are going to make the mastercopy of a photo book named "Australia in Photography" which will contain natural and man made beauty of Australia. The trainee will take the pictures as to learn and practice photography. But the good ones can be used to be the content of the book.

As part of their project the trainee will take, edit and select photos from the list of fields named below.

Nature, Flower, Fruit, Bird, Pet, Food, Animal, Sunset, Sunrise, Sky, Tree, Car, Product, Property, Roads, bridges, forests etc. Some of the special photography.

After successful completion of the projects listed above the trainees will be able cover the areas of photography listed below.

- General Magazine & Newspaper Photography
- Fashion Photography
- Travel & Resort Photography
- Sports Photography
- Portraiture, Children & Pet Photography
- Wedding Photography
- Show business & Entertainment Photography
- Food & Wine Photography
- Still Life and Product Photography
- Interior & Architectural Photography
- Glamour Photography
